Experienced developer with 3 years of industry experience. Proficient in software development methodologies, data analysis, machine learning, web development, automation and team collaboration. Seeking to advance technical skills and contribute to innovative projects.

PROFESSIONAL EXPERIENCE

Telloway

Jan 2023 – Present

Developer

- **Backend Development:** Streamlined backend processes by developing web services using the Django framework, aligning with dynamic business requirements
- **Frontend Development:** Designed and implemented responsive web interfaces utilizing HTML, CSS, and JavaScript to enhance user experience
- **Scripting:** Developed robust Python scripts to automate workflows, significantly reducing deployment and delivery times
- **Data Analysis:** Conducted comprehensive data analysis leveraging Python libraries, MS Excel, and Power BI
- **Data Visualization:** Created interactive dashboards in Power BI to visualize and analyze business processes

Cognizant

Oct 2021 – Jan 2023

Programmer Analyst/ RPA Developer

- **RPA Development:** Designed and implemented automation solutions using Blue Prism and UiPath to streamline claims processing for clients in the insurance domain
- **Bot Creation:** Developed end-to-end bots for automating tasks such as report generation and other business-critical processes, ensuring efficiency and accuracy
- **Documentation:** Prepared detailed daily reports on automated processes, ensuring seamless and uninterrupted workflows aligned with business requirements
- **Data Visualization:** Built insightful dashboards to analyze and showcase automated process scenarios, providing actionable insights based on business needs
- **RPA Lifecycle:** Extensive experience in managing and executing all stages of the RPA lifecycle
- **Agile Methodology:** Proficient in applying Agile best practices throughout development phases to enhance team collaboration and project efficiency
- **VBA Scripting:** Automated complex workflows using VBA scripting, ensuring error-free execution and optimized processes
- **Production Support:** Delivered hands-on production support during User Acceptance Testing (UAT), ensuring smooth deployment and operation of automation projects
- **Knowledge Transfer & Collaboration:** Facilitated seamless workflows through effective collaboration with cross-functional teams and structured knowledge transfer sessions

PROJECTS

Data Analysis of Indian States

2023

Python, Pandas, Matplotlib, Seaborn, Geopandas

- **Description:** Analyzed Census 2011 data and GDP (2018-19) data using Python libraries to create comprehensive visualizations representing demographic and economic trends across Indian states
- **Project Link:** [GitHub Repository](#)

Django Powered Blogging Website

2024

Django, HTML, CSS, JavaScript, Bootstrap

- **Description:** Developed a full-stack web application using Django framework with responsive design principles implemented using Bootstrap and custom CSS
- **Live Demo:** [Live Website](#)

EDUCATION

Lovely Professional University
B.Tech in Computer Science and Engineering

Aug 2017 – Jun 2021
CGPA: 7.1

TECHNICAL SKILLS

Languages & Frameworks: Python, Django, HTML, CSS, JavaScript, Bootstrap
Tools & Technologies: RPA (Blue Prism, UiPath), Power BI, VBA
Areas of Expertise: Data Analysis, Machine Learning, Web Development, Process Automation
